Appln. No. 11/797,069

Reply to Office Action dated 11/1/2005

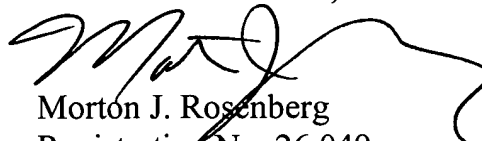

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 1 November 2005. In the Official Action, the Examiner has found two inventions, namely, Group I directed to Claims 1-3 drawn to a semiconductor test system having a tester and a prober; and Group II directed to Claims 4-13 drawn to a semiconductor test method. The Examiner has required that Applicant choose Group I or Group II for further prosecution in this case.

By this Amendment and Response, Applicant has canceled Claims 4-13 and elects Claims 1-3 for further prosecution.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
